

# ATTENTION!!!

## CHERRY VALLEY SEWER DISTRICT CUSTOMERS

Per the Board of Sewer Commissioners, this notice is to inform you that there will be a sewer rate **DECREASE** that will be implemented on the January 1, 2022 bills. District Staff has been successful in working with United States Department of Agriculture (USDA) to restructure the Districts loans. The restructuring of the loans has provided the District with an additional 10 years and a reduced interest rate to 1.375%. These changes are resulting in a **20% DECREASE** to the Base rate and the applicable tiers of the usage fees.

Due to time, constraints the new rates will be calculated into the January 1, 2022 bill but will not be reflected on the backside of the bill.

The new rate structure is as follows for the **Cherry Valley Sewer District**:

The approved minimum charge is \$36.00 and contains zero (0) consumption

<u>STEP</u>	<u>Monthly Range Cubic Feet</u>	<u>Sewer Rate per Cubic Foot</u>
1 <sup>st</sup> Step	1-350	\$0.1696
2 <sup>nd</sup> Step	351-700	\$0.2216
3 <sup>rd</sup> Step	701-1,050	\$0.2512
4 <sup>th</sup> Step	Over 1,050	\$0.3406

Subscribers who are not connected to the Cherry Valley & Rochdale Water District and who have a private well that are **NOT** metered, will be charged \$68.00 per bedroom, per household.

If you have any questions, please contact the District at 508-892-9616.

RESPECTFULLY,  
BOARD OF SEWER COMMISSIONERS,  
*DONALD G. MANSEAU, CHAIRMAN*  
*ROBERT LEMIEUX*  
*MICHAEL L. DELLACAVA, SR.*
